VOLUME IV, NUMBER 29 THE GOLD CENTER NEVADA CITY, NEVADA COUNTY, CALIFORNIA. THE COUNTY SEAT PAPER JUNE 9, 1930

LATE EDITOR'S FUNERAL HELD ON TUESDAY

At Trinity church on Tuesday afternoon at 2:30 o'clock Episcopal services were held over the bier of Arthur A. Willoughby, Rev. Pearson coming from Napa to perform the rites. Rev. Pearson read the impressive Episcopal funeral service and spoke briefly on the sterling character of the departed and his work in this community. Mrs. Gove C. Celio sang the beautiful solo "Vale" and the choir, under the direction of Mrs. Talbott with Mrs. Carley Johns at the organ, whom Mr. Willoughhby has been acquainted with for many years, sang several hymns.

There were many large and beautiful floral offerings as well as many sprays, wreaths and bouquets banked in the chancel and about the casket.

At the grave the services of the Masonic order were read by Mr. W. Meservey, Mr. Willoughby being a member of the Masonic order of Healdsburg, California.

The following acted as pallbearers: Thomas W. Richards and E. C. Uren, Elks; J. W. Darke and Frank Davies, Masons; A. C. Larson and W. C. Jeffrey, Knights of Pythias.

Carl Barnard of Santa Rosa, Grand King of the Royal Arch Masons of California, came as the personal representative of the Grand High Priest of the State Chapter. Charles King of Sebastapol, a Past Grand High Priest, was also present. Senator B. A. Cassidy of Auburn and a delegation of Royal Arch Masons, and Assemblyman Jerry Seawell, with a delegation of fifteen Royal Arch Masons from Roseville, where Mr. Willoughby had been instrumental in instituting the chapter, were also present.

Other out of town friends included: Mr. and Mrs. I. L. Putman of Yuba City, Judge Neville and Harry S. Tibbey of Downieville, John Eddy of Colfax and George Duffy of Forest Hill and many others of whom we were unalbe to secure their names. Ralph B. Peterson and Mrs. Elva Meek, brother and sister of Mrs. Willoughby, were also here from San Francisco. A number of regrets were received from friends who found it impossible to attend. Mrs. J. M. Niccoll, son and mother, Mrs. C. McGowan, old friends of the family, were house guests at the time of Mr. Willoughby was taken ill and remained until after the funeral.

In mentioning the relatives surviving we inadvertantly neglected to mention the sorrowing mother, Mrs. Elva Willoughby of Hillsdale, Mich., who had been looking forward all winter to a visit from her son. Also his sister, Miss Marian Willoughby, a teacher of Purdue, who left college for home last Monday expecting that her brother would meet her at the train, only to be met with the sad news of his death. A second sister, Mrs. Amy Frye, resides in Willard, Ohio.

NEW LIGHTING SYSTEM TO BE INSTALLED

Pacific Gas and Electric company workmen began last Tuesday installing the new street lighting system, which will consist of 22 lights throughout the business section.

The poles are now being painted and will be set inside the sidewalk lines thus making for a wider street. It is expected the work will be completed in about two weeks.

TRIPLE POCKET MINE TO BEGIN SINKING

With the building program practically finished Addison Brown and C. J. York are about to begin sinking the Triple Pocket shaft in the [illegible]. The [illegible]

[illegible] states that

(Page 8)

GOOD PROGRESS BEING MADE AT MURCHIE MINE

The week's development at the Murchie mine of the American Foundation Company are generally satisfying. Shoot No. 4 has been developed upon the 900 level and the intermediate west drift from 1000 raise has been advanced 22 feet in mill ore three feet in width. The important developments of the No. 2 shoot on the 1300 level west drift has been continued during week for 42 feet. To the present face it is 236 feet from the point where this shoot was first encountered. In slabbing off for a siding the ore has been exposed for a width of 10 to 12 feet for a length of 38 feet along the previously opened drift near the present face.

Drifting east upon the 1300 level was started during the preceding week and has progressd to 54 feet east of the station, all in low grade vein filling. At 22 feet east of the station a number of well mineralized quartz stringers cut into the vein channel from the hanging wall side. This drift will develop the vein block east of the shaft which has had but little prospecting attention below the fifth level, although a substantial ore tonnage was yielded from this area upon the upper levels.

The mill is operating two shifts daily with satisfying retallurgical results. Arrangements have been made to have a long change for all shifts, so all of the men may enjoy a full day off twice in each month.

FIRE LADDIES ELECT NEW YEARLY OFFICERS

Pennsylvania Engine Co. No. 2 of the Nevada City Fire Department held their annual meeting last night for the purpose of electing a corps of officers to serve for the coming year.

The position of foreman fell to Louis Kopp. The other officers are: first assistant, Gilbert Clark; second assistant, Howard Penrose; secretary, E. J. Kilroy; treasurer, William Gracey; directors, L. W. Kopp, James Penrose and William Gracey.

The representatives on the board of fire delegates are Richard Goyne, L. W. Kopp, James Penrose and Rolan Wright with James Hutchison as alternate.

R. R. Goyne is the company's nominee for assistant chief and on his shoulders also rests the entertainment features of the company.

The firemen enjoyed refreshments at Colley's after the meeting.

SOUTHERN CALIFORNIA REUNION JUNE 15TH

Former residents of Nevada County will hold their 11th reunion at Sycamore Grove, Los Angeles on Sunday, June 15th. The committee has sent out invitations to all former Nevada County residents in the south and assuring all who attend a good time and an opportunity to renew old acquaintances.

SCOUT SUMMER CAMP NEAR SODA SPRINGS

The Scout summer camp this year will be held at a new camp site not far distant from Soda Springs. The camp, for the past few years, has been held at a point adjacent to the Victory Highway a few miles above Cisco.

The new location for the camp includes a fine little lake which measures a little over one mile in circumference and which will make an ideal place for the swimming and kindred water projects of scouting. There are men who are interested in Scouting and who believe that it is the one way that has been developed to supply a character building medium which does not exist in other training institutions. Men of this type have conceived the idea of purchasing the present site for a permanent camp for the Scouts of Tahoe Area Council. A subscription list to purchase the property has been started and more than half the [illegible]mount of money necessary to buy [illegible]d has been donated by public [illegible]zens of Placer and Ne- [illegible] So far Nevada City [illegible]scriber to the fund [illegible] respond in the [illegible]equests mailed

PLANS FOR BIG FOURTH OF JULY CELEBRATION GATHERING STEAM

The Fourth of July celebration is gathering speed as the steam pressure mounts upward as the various committees wax enthusiastic in their several assignments. Evidently there will be a real '49er celebration, with a parade having entrants varying from ox teams to covered wagons. There may also be some later designs in another division of the parade.

A "Days of '49 Concessions" committee has been appointed by general chairman Frank Davies. Ed. C. Uren is the chairman of this committee and he has a live bunch of assistants who will doubtless have something rather interesting to show by the time the Fourth comes around.

There is here in Nevada City one of the best natural settings for an early day representation that can be found in the entire West. The old buildings, built of brick and stone and guarded by the iron doors and iron window shutters are living witnesses of the type and sturdy construction of the early buildings of the state. If several of these buildings could be opened and occupied for the two or three days of this celebration it would be far more of a '49er celebration than can be held in any city where rickety booths must be built to house the resurrected miners.

It is planned to have a dance and a program at Redmen's Park on the night of July third. A carnival was at first proposed for that time and place but as it would entail considerable work to put on a carnival and most of the organizations of the town will be busy on entrants in the parade it was decided not to have the carnival. Likewise the idea of taking part of the celebration out of town and having a water carnival at Lake Vera has died out due to several difficulties which presented themselves.

At the last meeting of the general committee last Friday evening a plan was proposed by which it is hoped to raise considerable money which can be used for a nucleus of a fund to help promote the airport site on Cement Hill. Programs will be printed showing the list of attractions to be enjoyed during the course of the celebration. These will be sold for a nominal sum and the proceeds will go toward the airport fund. With the purpose of each program buyer will receive a ticket which may be the one that will bring to him free of cost the ten-acre homesite and mining claim which was donated to the general committee by Carl Tobiassen.

Finances Good.

The finance committee rendered a report which indicates that by the time they have collected on all the pledges they received from citizens they will have the sum of $700 or thereabouts with which to pay the expenses of the celebration. It will take at least that amount to put on a good show and any money left over may be used for the promotion of the airprt.

Vigilants to Act

J. J. Jackson was appointed as chairman of a Vigilance Committee and he is quietly organizing his troops and believes that by next week they will be ready to start a drive against all who have not allowed their natural crop of whiskers to grow unscraped. It is quite necessary, now that the citizens have decided to stage a '49 show, that the proper atmosphere be created, and one of the important things in harking back to the days of gold is reproducing as nearly as possible the bristling facial adornments which the busy miners let grow luxirantly.

An invitation has been sent to the president of the Sacramento Nevada County Association, Mr. William Wicks, extending an invitation to all former Nevada Countyans who can to come to Nevada City this year for the July 4 activities. The Sacramento Association will have had their regular meeting yesterday, June 8, at the Sacramento State Fair Grounds. Several parties went from Nevada City and intended to reinforce the official invitation with active solicitation and by distribution of printed dodgers.

Chairman Davies announced that he would give prizes of $2.50 each to the first man and first woman appearing upon the streets in regulation '49 costume. One candidate has come forward and probably will collect the mazuma if he sticks to it awhile.

A letter was received from Eben K. Smart, secretary-manager of the Grass Valley Chamber of Commerce pledging his assistance and the help of the Grass Valley Chamber of Commerce pledging his assistance and the help of the Grass Valley Chamber of Commerce to the celebration. The offer was accepted and a communication ordered sent to Mr. Smart thanking him for his proffered assistance.

The weather, which has been rather chilly for this time of year, has turned warm within the last few days and promises now to be of the regulation "Fourth of July" weather. The hotter it gets the warmer the excitement becomes and the more business the concessions will do, so let's hope for fair and warmer.

TRUSTEES HOLD SHORT SESSION WED. NIGHT

The City Dads held a short session on Wednesday evening, only routine business being considered. The bills were examined and orderd paid. Most of th trustees desired to attend the graduation exercises so the meeting was a short one for that reason.

Mayor R. J. Bennets presided and all the trustees were present with the exception of Wade Armstrong.

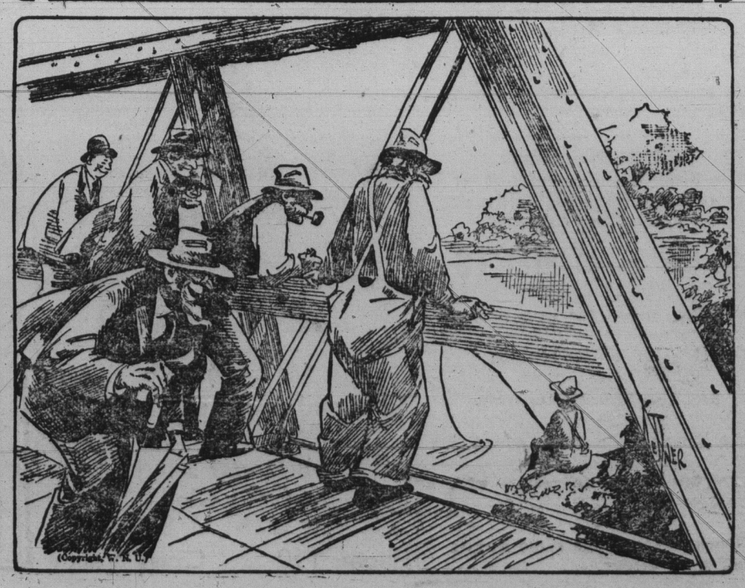
The rustees voted to give $100 towards the Fourth of July Celebration.

CENTENARIAN AT COUNTY HOSPITAL

Out at the County hospital James Pritchard, who has been a resident of Nevada County for the past 60 years, is soon to have a birthday. It is an anniversary, however, that a very few of us may ever hope to reach, for he will reach the ripe old age of 100 years in August.

Mr. Pritchard's friends are trying to persuade him to the State Fair at Sacramento to compete for the prize offered for the states' oldest man.

Spring Fever



TEACHERS LEAVE FOR THEIR SUMMER VACATION

With high school closed for the summer vacation the faculty, with the exception of principal and Mrs. Wilson have left for their various summer vacations.

Prnicipal and Mrs. Wilson will spend the summer in Berkeley while Mr. Wilson attends the summer session of the University of California. Mr. Penderson left Saturday for his contemplated trip to Europe. He plans to be gone the entire summer. Mr. Kjorlie will go to Palo Alto with Mrs. Kjorlie where Mr. Kjorlie will attend the summer session of Stanford University. All three men plan to return to their positions here next fall.

Mrs. Ruth E. Hulan has accepted an excellent secretarial position in San Francisco and started work on Thursday of last week. She will not return here. Miss Main is also leaving us as she has accepted an excellent position in Wasco, Wash. Miss Anne Whelan will spend her summer vacation with her family in Holland, Mich. She is under contract to return next year. Mrs. Thelma Leschinsky will spend the summer with her folks in Berkeley. It is not certain as whether she will return next summer as she has several tempting offers.

CARL J. TOBIASSEN CANDIDATE FOR SHERIFF

After much consideration of the matter Carl J. Tobiassen has decided to announce himself as a candidate of sheriff in the coming election. This makes a three-cornered fight and promises to be an interesting one.

Mr. Tobiassen was a deputy sheriff under former sheriff Robson. He has an idea of how the office should be run and promises, if elected, to attend to the duties of the office in a fearless and straight forward manner as becomes the position.

He was born in Nevada township 35 years ago and received his education in the schools of the county. He has worked in the various mines in Nevada City and Grass Valey. Six years ago he took over the management of the county farm having received his appointment from the county board of supervisors. His successful administration of the affairs there have won the admiration of many friends. He is a man of stering qualities and should receive the consideration of the voters of the conuty.

MANY PICNICS TAKE PLACE OLYMPIA PARK

Thursday the Catholic orphanage of Grass Valley and school children from Wheatland enjoyed an outing at Olympia Park. The children thoroughly enjoyed the lake and the many other park amusements.

Friday students and faculty of the Junior High school of Marysville spent the day at Olympia.

ROLPH CAMPAIGN GETS UNDER WAY IN COUNTY

Nevada County got under way in their Rolph for Governor campaign last Thursday night at an enthusiastic meeting at the office of Judge John Mulroy. John A. McGilvray, northern manager of the Rolph campaign ,was in attendance and addressed the audience. The genial San Francisco mayor will be in Nevada County in a few days and will be received with open arms.

E. H. Armstrong, one of the strongest of the Rolph boosters, called the meeting to order and was elected temporary chairman until a permanent chairman can be selected. The other officers were: R. E. Deeble, secretary-treasurer; Lynn Kelly, vice chairman. The executive committee, headed by C. E. Clinch, chairman, consists of A. L. Gill, Grass Valley; Elsie Willoughby, Nevada City; Dave Cabona, Truckee, and James D. Stewart, Auburn.

Mr. and Mrs. J. L. Seawell drove up Sunday to spend the day with Mrs. Willoughby.

EXCELLENT ORE UNCOVERED AT HOGE PROPERTY

The Hoge Development Company, during the past week have had two very interesting developments. On their 300 foot level, on the foot wall of their main ledge, they have found values that assy $180 per ton in gold, and from the appearance of things, they believe they are in the close proximity of a valuable ore body. The vein is a strong fissure vein, that has a good well defined foot and hanging wall, and an average width of over six feet.

Drifting operations are being prosecuted upon this vein, to the west, and they are driving a crosscut, to pick it up to the east, with the hope and expectations of developing a large tonnage of good ore. During the past week Billy Genasci, the foreman, uncovered another new surface vein that had never been opened up or discovered. This vein proved to be a 10 inch ledge of solid quartz that showed assay values of $160 per ton.

These are encouraging developments and it is the hope of every one in the community that this company may soon become one of Nevada County's biggest and best producers. This company certainly deserves success, and what Nevada City needs more than any other one thing are more mine operations.

TEACHERS APPOINTED FOR GRAMMAR GRADES

Two new teachers have been appointed to fill the vacancies caused by the resignation of Miss Agnes O'Neil, music supervisor and Miss Alice Noyes, Sixth Grade teacher, who has asked for a year's leave of absence that she might attend art school.

Miss Doris Nightingale, who has been at Camptonville for several years past, will fill the post vacated by Miss O'Neil and will also be the art teacher. Miss Alice Smith a graduate of the State Teachers College at San Jose, will fill the place vacated by Miss Noyes.

The other teachers to receive their appointment are Principal, Walter Carlson; 8th grade, Mrs. McCormack, 7th grade, Miss Nightengale, 5th grade, Miss Elizabeth Janes; 4th grade, Miss Keenan, 3rd grade, Miss Elizabeth Keenan, 2nd grade, Miss Savory Ford; 1st, grade, Miss Gertrude Goyne.

Gilbert Davis, who is under leave of absence as principal, plans to continue hi shhigher educational work and will go to Stanford for both the summer and regular sessions and will secure his A. B. next year.

NEVADA CITY HIGH GRADUATES CLASS OF 29

Friday evening a class of 25 boys and girls of the Nevada City High school received their diplomas at the exercises which were held in the Nevada theatre. The theatre was tastefully decorated in the class colors: green and white. The boys wore the usual graduation suits, while the girls wore dresses of many beautiful colors .After the exercises dancing was enjoyed at the Odd Fellows H'all. The program was as follows:

CLASS MOTTO—"We have reached the foothills, the mountains are in view."

CLASS COLORS.— Green and White.

CLASS FLOWER—Tea Rose.

CLASS ROLL—Robert Beegel, Thelma Boreham, Edith Casci, Vivian Cerro, Catherine Davies, Isabelle Flynn, Lena Ghidotti, Verne Gleason, Elizabeth Godfrey, Myril Greathouse, Frances Horwege, Walter Huson, William James, Addison Janes, Gertrude Jones, Milton Masters, Helen McCullough, Katherine Parsons, Holden Pierce, Robert Polglase, Harrison Randall, William Rector, Florence Smart ,Floyd Stenger, Nadine Sutton, Dorothy Tamblyn, Margaret Thomas, Grace Towle, Ann Williams.

Mr. B. F. Wilson, Principal.

Mr. H. E. Kjorlie, Class Advisor.

Arthur A. Willoughby ..... Editor and Publisher
Elsie P. Willoughby ..... Associate

The loss of our beloved editor is a severe blow. Not only will he be missd in the office but in the community at large. He was a member and worker in every civic organization. In the fire company he was especially a worker. The minute the fire gong sounded he would drop everything and run to the fire. He was always one of the first to arrive and the last to leave.

Although confined to his home he was taking a keen interest in the coming Fourth of July celebration. He was one of the first to boost for the '49 celebration and his keen brain was ever busy devising ways and means. For more than a year he had planned on a Hoover monument at the Reward mine. He had plans drawn up and an estimate made of the cost. He wished it to be a part of the celebration of the Fourth. It will possibly be a feature on the Sunday after the Fourth in compliance with his wish.

In Masonry he was a pillar of strength, especially in Royal Arch Masonry. He was District Deputy Grand Lecturer of this district and held to his heart the interest of every chapter in his district. The appreciation of the chapters were shown in the beautiful floral pieces which came from each one, and in their attendance at the funeral.

His chief hobby was to boost the mining industry and he did it as no other man ever has. He was never too busy to talk up the local mines to any stranger who came to the office and often spent hours of his busy time going over the situation here with an interested party. The Nugget office is covered with maps which were always available to anyone who wished to consult them.

The Nugget has always been essentially a mining paper boosting always the chief industry of the county. He was one of the organizers of the local chapter of the State Mining Association and its acting secretary. His enthusiasm carried the others along when their interest flagged. It will be difficult to find a man to fill the place he carried on with such excellent ability.

In The Nugget office he will be "Gone, but not forgotten." It is our plan at present to carry on the paper as he would wish it carried on. In this I have been assured the help of numerous kind friends which needless to say will be greatly appreciated.

The splendid cooperation between the Grass Valley Union and The Nugget was keenly felt during the hours of our trial. Their kindly offer of any service that might be rendered to me personally or to The Nugget receives my heartfelt thanks.

The News Printing Company, under George Gildersleeve, also came forward with an offer of assistance. The Nuggets of last Monday were folded at the News' office and were in the post office on schedule time just as the departed editor would wish it to be. To him also we render our thanks.

To Tom Bessler, our good printer friend at the office, enough cannot be said. Faithful to his post at the office he carried out the slightest wish. We hope he will continue with us long.

To mention singly the many friends we have to thank would be impossible, but we do thank everyone for their beautiful flowers, for the kind words of sympathy and for the splendid words of praise for the good citizen who has gone on.

We want to live long among such splendid people, and to bear with them their sorrows and to share with them their joys.

My heartfelt thanks to all.

Sincerely,
Elsie P. Willoughby

THE KITCHEN CABINET

(©, 1930, Western Newspaper Union.)

"It's a word of cheer and a smile for you,
It's an honor to give and an honor to win
It's the grasp of the hand that is strong and true
As it clasps your hand and welcomes you in.
It's your hand stretched out to a distant friend
Across the horizon of mountain and sea
It's a grip of fraternity knowing no end
This handclasp of friendship, for you and for me"

SOME GOOD DISHES

If there is part of a sponge cake left, use it cut into small pieces, placed in sherbet glasses with sections of orange or sliced peaches. Pour over the cake and fruit a soft custard that has been well chilled. Top with a spoonful of whipped cream and garnish with a cherry if it is for a special occasion.

Baked Caramel Custard.—There are few people who do not enjoy a good custard, baked, boiled or served as floating island. Take one quart of milk, five eggs, one-half cupful of sugar, four tablespoonfuls of caramel sirup, one-fourth teaspoonful of salt and one-half teaspoonful of vanilla extract. Heat the milk, add sugar and caramel, add the lightly beaten eggs and vanilla and pour into custard cups set into hot water. Bake until the center is firm enough to leave a knife clean when thrust into the custard. To make the sirup put sugar into a smooth frying pan, melt and stir until liquid, add boiling water and stir until dissolved. This sirup may be bottled and kept for some time, to use for flavoring.

Pineapple Custard.—Heat one quart of milk, one-half cupful of sugar and pour over four well-beaten eggs very slowly. Cook in a double boiler until the custard coats the spoon. Remove from the fire and cool. Add two cupfuls of pineapple cut into small pieces, flavor with vanilla and serve.

Chocolate Pudding.—Mix six tablespoonfuls of cornstarch with one-half cupful of sugar, add one quart of rich milk, one-half teaspoonful of salt and cook in a double boiler until the starch is well cooked—at least 20 minutes. Beat one egg until light, pour the hot pudding slowly into it and beat well again. Add one teaspoonful of vanilla and pour into wet molds.

Nellie Maxwell

THE BACK YARD GARDENER

Iris, Other Bulbs for Fine Blossoms

The vogue of the iris in the garden calls attention to the type of this beautiful plant best suited for cutting, the spanish iris and its relatives, the dutch irises. The later are magnificent greenhouse material but not hardy. They closely resemble the spanish iris in form but are larger and longer stemmed.

The spanish iris is perfectly hardy but requires a warm, well-drained soil for success. It is a bulb entirely different in character from the roots of other garden irises.

Another bulbous iris even more pretentious in its beauty than the slender, graceful spanish iris is the english iris, resembling a small japanese iris in form and coloring. It needs moist, heavy soil and the spanish and english are seldom happy in the same garden unless special conditions in heavy soil are created for the spanish type. Both bloom later than the tall, bearded class. The spanish with its very thin foliage has not so much decorative value in the garden as other irises but its long stem makes it ideal cut flower material and unlike its kin which grow from rhizomes, rather than bulbs, the flower lasts well when cut. These bulbous irises are under the ban of the plant quarantine

Spanish Iris.

board and cannot be imported. Formerly they were so cheap that it made little difference whether they survived more than one year or not. Now they are more expensive and the supply comes from the Pacific coast. Spanish irises raised in the Pacific Northwest have proved even finer than those we formerly imported in great quatities from Holland. They are well worth a sunny spot in some convenient corner of the garden for cutting material, and for garden decoration should be provided with a foreground of low growing attractive foliage of some other plant.

In the squills and grape hyacinths, we have materials for the finest sheets of intense blue in the early spring that give character to the garden before the hardy plants have more than a brief start into growth. The siberian squill, scilla siberica, is now used in great quantities all over the garden. It is a companion of the

English Iris.

crocuses and of a rich intense blue that has no rival at its season. This little squill once started in a garden will seed itself and in a few years will establish large colonies.

It is a useful little bulb to scatter all over the garden, dibbling in a few bulbs wherever a space presents itself among the perennials. It can be dropped into the open center of iris clumps, around the crown of peonies, between clumps of delphiniums, in fact any little space will accommodate these little bulbs which will give a sheet of blue in the first warm days of April. Other plants springing into growth will cover the dying foliage of this bulb which matures early.

A little later and of larger growth is the grape hyacinth, muscari boytorides, and its more beautiful relative, heavenly blue, muscari racemosun. The latter is displacing the old grape hyacinth because of its more substantial stalks of intense blue "grapes" and because its foliage is not so rank. The old-fashioned grape hyacinth makes dense patches of blue and multiplies so rapidly that it often becomes almost a pest. It makes beautiful pots of bloom for the window. Plant a half dozen or a dozen bulbs in a bulb pan, a pot of half depth, set in a cold frame or merely leave it outside until wanted indoors. Bring it in, thaw it out gently and set in a window and the grape hyacinths will pop up and give a beautiful display.

The Lunenburg Fleet

The famous Lunenburg fleet, as the fine clipper schooners that fish out of the Nova Scotia port are collectively known, now numbers 71. An old Lunenburg custom which endured for years was to give a vessel a name containing the letter "a" three times. Some of the examples in the present fleet are found in the Autauga, Delawana, Palitanna and Partana. Today, however, the custom has waned to a considerable extent, most of the Lunenburg vessels being named for the wives and daughters of the port's captains.—New York Times Magazine.

Victory for French Women

Fifty per cent of the candidates for bachelor's degrees in the Sorbonne, or University of Paris, during 1929 were women, according to figures of the university directors. In former years women students were frowned upon and some professors would not admit them to their classes.

Reforesting Hawaii

Planting operations on the Hawaiian forest preserves in the past two years required 418,531 trees, an increase of 200,000 over the previous two years. Recent increases in Hawaiian forest preserve areas have brought the total to 980,682 acres.

Lot of Them Like That

"Come back next week," said the man at the door.

"Say," growled the collector, "you gotta get over the big idea that stall is all there is to these installments."—Cincinnati Enquirer.

Shutting the Shutter

"Willie, didn't I tell you to shut that shutter?" said Willie's mother.

"The shutter's shut," replied Willie, "and I can't shut it any shutter!"—Montreal Star.

Evidenly Recovering

"How is Mrs. Gabfest doing since her operation?"

"As fluently as can be expected."—The Pathfinder.

Fishing Was Good

First Fish—I'm so sorry to hear of your husband. What did he die of?

Second Fish—The hookworm.

SAGE SENTIMENTS

Occasions prove the man.

Mutual trust binds society.

All progress is not happiness.

Two human loves make one divine.

I am but a fool to reason with a fool.—Tennyson.

Women argue in the same way they get off a street car.

Why We Do What We Do

by M. K. THOMSON, Ph. D.

WHY WE ARE TEMPTED

TEMPTATION is a religious term but it is also used widely in everyday situations. We say we are tempted when we have an inducement and an inclination to do what we know to be wrong, what our better judgment tells us we should not do.

No one is ever tempted who is thoroughly good or thoroughly bad. If you have any temptations at all it means that you are not wholly consistent in your ideals and desires. A person whose impulses and wishes are always in line with his conscience and best judgment can never experience that discord of personality we call temptation.

Temptation is the voice of suppressed evil. Yielding to temptation means giving in to the momentary desire or the voice of the suppressed evil at the sacrifice of a principle and the expense of an ideal.

A sense of shame and remorse follows because one suffers the loss of prestige in his own eyes and the loss of self respect for being disloyal to his own best self. Before yielding to temptation the voice of the suppressed evil is dominant and is plainly heard, whereas afterwards the voice of the suppressed good or conscience becomes strong.

If we give in to temptation it is because our better nature or sounder judgment is overcome by the force of some desire which has gathered force through the attachment of some emotion and together they sweep all opposition before them. But afterwards this partnership is dissolved. Like an unfaithful accomplice it deserts the original desire and the personality is left to face the music alone at the bar of one's own conscience or better self.

We are tempted because we have evil desires or desires that do not square up with our ideals and principles.

His "One Big Moment" Recalled by Doughboy

I journeyed to Kansas City, Mo., June 5, 1919, parked in a hotel, ordered a room, then went out and did some shopping on the main drag, salvaging an alarm clock, a pair of pajamas and a sergeant's whistle. Then to my room, tipped the bellhop two francs, gave him the whistle, instructed him to come to my room at 3 a. m, open the door and blow the whistle and to yell, "Outside!"

Now this is where my big moment came in. I threw one of my hob-nail shoes at that bellhop and sent him running down the hall. The other shoe I threw at the alarm clock, smashing it, then turned over, covered my head, and slept to my heart's content. Now, that was my big moment.—St. Louis Post Dispatch.

Only Looked Like Cash

A fourteen-year-old Belfast (Maine) boy rummaging in an attic of a century-old house had the surprise and disappointment of his young life. Although he found a barrel of money in $1, $3, $5 and $10-bills, they were presumed to be worthless, says the Boston Globe. The bills are said to run into the thousands and are on the Frankfort bank, state of Maine, signed by B. Shaw, president, and B. Johnson, cashier, dated 1834 and 1837. The history of Maine gives no such bank in its list of Maine banks and it is believed that the script is a relic of a private bank.

Remarkable Memory

A caller on Elijah Harriman, South Warren, Maine, ninety-eight years old, found him doing his share of work and helping prepare the evening meal. His eyesight, hearing and memory are unimpaired. He said to the visitor: "I remember the first time I saw you: it was sixty years ago."

Glass Halls at Exposition

With walls almost entirely of glass, a large number of halls will be a feature of the exposition which will be opened at Stockholm, Sweden. The contents of the halls will always be visible from without, but especially so at night, when they will be brilliantly illuminated.

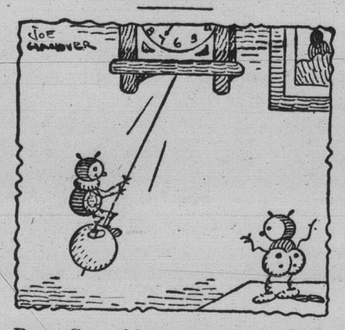
BRILLIANTS

Any man who can make money can borrow plenty.

If you just must have a hobby, make your work that.

Most secrets are uninteresting. We don't want to hear 'em.

LOTS OF FUN



Bug—Gee, this is the best ride I've ever been on and it don't cost anything either.

LEGAL NOTICE

State of California
Department of Public Works
Division of Water Resources
Sacramento

NOTICE OF APPLICATION TO APPROPRIATE WATER

Application 6597

NOTICE IS HEREBY GIVEN, That South Yuba Co. Ltd., % W. E. Plank, Washington, Nevada Co., California, has under the date of March 13, 1930, applied to the Division of Water Resources, Department of Public Works, State of California, for a permit to appropriate unappropriated water, subject to existing rights .

Description of Project

Water to be appropriated from Scotchman Creek, tributary to S. Fork Yuba Rivr.

County of Nevada.

Amount applied for: 40 cubic feet per second.

Diversion season named: Jan. 1st to Dec. 31st of each season.

Water to be used for Mining.

Point of diversion within SE ¼ of NE¼ of Sec. 18, T 17 N., R 11 E., M.D.M.

Place of use described: Secs. 6 & 7, T 17 N., R 11 E. and Sec. 12, T 17 N., R 10 E., M. D. M. as shown on map on file in office of Division of Water Resources.

And will be returned to South Fork of Yuba River in Secs. 6 and 7 T 17 N., R 11 E., M.D.M.

Relative to Protests

Blanks upon which to submit protests will be supplied free upon request by the Division of Water Resources.

Any person desiring to protest against the granting of such permit shall within 60 days from date hereof, file with the Division of Water Resources, Sacramento, California, a written protest. Such protest shall clearly set forth the protestant's objections to the granting of the application and shall contain the following information:

(1) Statement of the injury which would result to protestant from such appropriation and use.

(2) The basis of protestant's water right.

(3) Protestant's past and present use of water both as to amount used and land irrigated, or use made of water if other than irrigation.

(4) The approximate location of such land or place of use of the point of diversion of hte water.

A copy of the protest should be sent to the applicant and this office notified that the same has been done.

EDWARD HYATT,
State Engineer

MANY LETTERS RECEIVED

Many letters of glowing praise for the late editor have been received. Only a few are herein printd:

Roseville, Calif,
June 5, 1930

Mrs. Arthur A. Willoughby,
Nevada City, Cal.

My Dear Mrs. Willoughby:

It is with deepest regret and sorrow that I am writing these lines trying to express my sincere sympathy to you and your family realizing the great loss you have suffered.

Mr. Willoughby was respected as being a man amongst men and an outstanding leader in the moral and civic life of his community. His many achievements and efforts on behalf of the people of Nevada County will long be remembered and cherished by those who knew his truly outstanding and a good man.

Mr. Willoughby loved Nevada County and the people within its boundaries and his work as a publisher was one, if not the one, outstanding factor that has rejuvenated the mining industry an industry which has long laid dorment and his loss to this industry has certainly been a calamity.

The Sun of Life that shines upon our Mortal existence has sunk beneath the horizon and has taken with it this great and good man to deliver him to a brighter and better land. If there is to be justice alloted by the Supreme Creator in this world or the one to follow, Arthur Willoughby has earned a niche in the annuls of the progressive history of Nevada County and a pedestal of honor in that unknown world where he has traveled.

His friends who have been left behind realizing that they, also, have suffered a great loss unite in paying their humble respect to the memory of Arthur A. Willoughby, and his kind deeds will be cherished in our hearts as long as God Almighty allows the blood of life to flow through our veins.

Sorrowfully submitted,
JERROLD L. SEAWELL.
Assmblyman Third District

The following is from Charles G. Johnson, State Treasurer of California:

Sacramento, Calif.,
June 4, 1930.

My Dear Mrs. Willoughby:

I have just learned of the untimely death of my dear old friend, Arthur, and want to express to you my deep and sincere sympathy.

The memory of his many virtues, his splendid character and his devotion to duty is a heresy in which you can justly take pride. We can only take consolation, through the medium of prayer, sustained by an unfaltering hope that some day we may understand.

Sincerely yours,
CHAS. G. JOHNSON.

The following is from Ross F. Taylor, Deputy surveyor of Sierra County, Downieville, Calif.:

With the passing of Arthur Willoughby, the mining industry of California has lost a friend. Knowing its needs ,willing to help, giving freely without thought of reward or praise, Arthur Willoughby has made for himself a place in the heart of mining that cannot again be filled.

Sierra County, no less than Nevada, today mourns the loss of her friend. His tireless efforts in behalf of the miner have not been in vain, nor will they be forgotten.

May he rest in peace, his monument the gratitude of an Industry.

ROSS F. TAYLOR

The following is from J. J. Gallagher, Secretary State Compensation Insurance Fund.

Mrs. A. A. Willoughby,
Nevada City, Cal.

My Dear Mrs. Willoughby:

I have just learned of the death of your husband and wish to extend my sincere sympathy. Although I did not have the pleasure of meeting Mr. Willoughby personally, I know from my short stay in your community the place he held in the hearts of his fellow citizens.

The mining industry of this state and the County of Nevada have lost an able and sincere friend.

Words are difficult vehicle my which to express one's sympathy, but I did want to let you know that I join with your many friends in offering my sincere sympathy.

Sincerely,
J. J. GALLAGHER,

IDEAL FUTURE FOR NEW SOUTHERN LAND

Read Admiral Byrd says that he has no intention of claiming for the United States the new lands that he has discovered in Antarctica. His conception of the frozen continent is that it belongs to the world.

Acting in that spirit, it should be easy for the nations to agree that Antarctica shall be held perpetually as a great scientific laboratory under the direction of the leading scientific societies of the world.

While an uninhabitable area never is likely to become a subject of nationalistic rivalry, the status of No Man's land always presents certain dangers. Minerals or fisheries may be found to tempt exploitation. It is better that a definite governing authority be established in advance of need than to wait until some unanticipated event has created conflicting needs. Antarctica well might be turned over to science under some international plan which would give to science authority to see that its claims always are paramount.—Buffalo Evening News.

Violet Rays Employed to Fight Common Colds

Experiments covering two years at Cornell university seem to indicate that the prevalence of the common cold may be reduced by 40 per cent by the use of the violet ray. The medical director of the institution said:

"In 1926 and 1927 there was not one of the normal students had colds, but among the cold-susceptible students there were weeks when as high as 62 per cent had colds. For two years we have irradiated cold-suspectible students through the dark, cold period of the year with ultra violet lenses over the entire skin surface from ten to fifteen minutes once a week.

"This ten to fifteen-minute irradiation of the entire surface of the body is equivalent to a whole week's sunlight in the summer with only the face, neck and hands exposed. On that basis we got a reduction in cold incidence of 40 per cent."

Belligerent Owl

A struggle between an owl and the engineer of an electric express train has been reported at Linkoeping, in southern Sweden. The bird, probably attracted by the headlights of the locomotive, burst against one cab window and broke the glass. Well inside, it sank its claws into the shoulders of the motorman and attacked him with its bill. The engineer could not leave his grip on the switch, and a fierce battle ensued while the train raced on its way. At last the motorman succeeded in strangling the bird, which was an unusually large specimen.

Pianos to Fit Horses

In order to transport pianos over mountain trails or difficult roads, an enterprising German manufacturer has constructed a special type of the instrument, which permits it to be carried on horseback. The piano has a U-shaped lower section which fits the animal. Other pianos are made dismountable so that they can be transported in several packing cases on the backs of mules, and assembled on delivery, because the instrument would be ruined were it to be hauled over many of the trails for hours, and often days, in a cart drawn by oxen.

Children Like Own Church

Children of Bournemouth, England, have taken to the idea of replacing the Sunday school by a special afternoon service of their own at St. Michael's church. The little ones are supplying their own readers of lessons, choir, organist and warden. The church at Kew has also established a special chapel for the use of children under eight years of age.

Not Homesick

Ann's parents left her at her grandmother's when they went East last summer. The little girl seemed quite contented for several days; then one evening she wouldn't eat. Her grandmother asked whether she was homesick. "No," she answered, "I'm not, but my stomach wants to go home."

Profitable Investment

William Plumb, assistant instructor in physics in Morningside college at Sioux City, Iowa, sought to test the honesty of his class by distributing fifty pennies when class opened. The box, placed by the door and opened after class had been dismissed, contained fifty-three coppers.

No Trees in His Neighborhood

"Can you tell a tree by its bark?" asked the man recruit for the boy scouts.

"Naw!" replied the city kid, "the only thing I kin tell by its bark is a dog."—Cincinnati Enquirer.

Sheik Weaknesses

Sally—Do you mean you forgot you were to meet me here at six?

Sammy—Well, ever since I put grease on my hair everything slips my mind.—Philadelphia Inquirer.

Grimm Stuff, That

"Granddad, tell me a tale."

"What sort of a story?"

"One about a little boy who had a kind granddad who took him to the pictures every Sunday."

An Advantage

Well, there's one advantage to that bigger golf ball, anyhow. You'll be able to top some of the shots you used to fan before.—Judge.

TICK-TOCK!

First Mouse—What a queer place to live. How do you manage to sleep?

Second Mouse—Very comfortably. I sleep between the ticks!

Worse than a bloody hand is a bloody heart.—Shelley.

HARD TO BEAT A DAD LIKE A. J. KISTLE

Mr. and Mrs. A. J. Kistle of this city are grooming themselves and their little family of eighteen children to trek to Sacramento in Sepdren to trek to the reunion at Sacramento where they will enter the contest for the largest family.

The Kistles will demonstrate to the rest of the world that when it comes to raising a family the silver cup should go to Nevada City. Here in this balmy atmosphere the rearing of a family is as easy as growing dandelions provided, of course, you exercise the proper amount of devotion on the job.

Of course one car will not accommodate this little family because with father and mother making twenty people are three grandchildren, the offspring of tow married children—or, in all 23, and it will take a fleet at least four cars to transport the family.

No doubt many an old maid, who has no companion but the cat at home, will be envious of this mother of 18 who is comparatively young yet—for she is only 42. And as for dad, it isn't a case of "everybody works but father" for father works, too, although he is eight years older than the mother. We anticipate that the Kistle family will prove quite an attraction in Sacramento..

—0—

DOWNIEVILLE ITEMS

DOWNIEVILLE, June 6—(Special to The Nugget).—Clark R. Carter left Thursday morning for Annapolis, where he will enter the Naval Academy. Clark is the son of r. and Mrs. Wm. L. Carter of Downieville, and has spent most of his life in Sierra county, though a native of Nevada City. He received his appointment to Annapolis last year from Congressman Englebright.

Mr. and Mrs. J. B. Kerfoot of this place took Clark to Auburn, where he took his train east. Mrs. Carter accompanied them.

Mrs. Margaret Ward, of Los Angeles was in Downieville last week on mining business.

Chas. E. Herron spent several days of last week here on mining business connected with the Oro and Eleanor mines.

Mr. and Mrs. R. F. Taylor visited in Nevada City Wednesday.

Miss Helen Sutton is visiting with her uncle, Dr. J. R. Ivey, in Nevada City.

Mrs. May Lusk has been appointed Deputy County Clerk, to fill the vacancy caused by the resignation of Mrs. Florence McCormick.

Judge H. B. Neville, H. S. Tibbey and Harry Ritzwater attended the funeral of the late A. A. Willoughby in Nevada City last Tuesday.

Mrs. Sarah Quinn returned Wednesday from Portland, where she has been visiting relatives.

H. B. McCormick is running his main drift ahead at the Arizona Mine to get under the gravel opened up last spring by a raise. D. W. Mills si working with him.

C. P. Klinkner has started assessment work at his Forest City properties.

M. F. Lusk and R. F. Taylor have been surveying their gravel property at Goodyears Bar.

FRENCH CORRAL ITE

FRENCH CORRAL, June 8—(cial to The Nugget).—The "p days" of June, are bringing the crease of temperature and who dread the summer's heat, forward to their undoing. How in French Corral we have a va of temperatures which make possible to pass the summer ofrtably. We can live out of d under the shades of orchard t and hardly think we might have years of drought.

Mr. and Mrs. R. Dalbury and dren have gone to Oak Valley spend the summer months.

"Say it with flowers" was observed in this section on Memo Day. Friends and relatives were b remembering loved ones.

Mrs. Bean, Mrs. K. Sullivan, M Nilly Sullivan, A. Moynier and Swazey made a trip to San Juan a Sweetland on Memorial Day to vi the cemeteries and place flowers graves of dear ones.

Mr. and Mrs. J. Kenting and M and Mrs. Meverick of Oakland, spe a few days with the Meyers family whom they are related.

Clarence Meyers of Los Angel visited his father, Thomas Meye during the week.

Miss M. J. Henderson, Mrs. Pea Winters, Mrs. L. Meyers and Miss M Spencer, formed an auto party wh visited this place Saturday, Miss M J. Henderson was a former Frenc Corral girl and her girlhood day were spent in this place. After grad uating as a school teacher sh taught her first school in Frenc Corral. Her family moved to San Francisco and there she gave 5 years to school teaching, being retired a few years ago. While she found French Corral only a skeleton of what it used to be she was delighted to come back to some of the same old scenes.

Mr. and Mrs. Francis Reardon of Oakland, and Mrs. Reardon's mother, Mrs. J. Solani, were Memorial Day visitors.

Some parties from near Nevada City met with an accident Saturday in going of of the bridge below the hotel in French Corral. Luckily no one was hurt and the machine only slightly damaged. Help was sent from Lister's garage to tow them in to town.

Miss Frances Moulton of Sacramento and Miss Louise Moulton of North Bloomfield are spending their Memorial Day vacation with their parents in this place.

Wesley M. Bean and his friend, Joe Ecklund of San Francisco, spent Saturday with friends in French Corral. It was Mr. Ecklmund's first visit to a placer mine and he was quite interested in "panning out" some dirt and got a very good prospect. Both gentlemen thought they should have a guard on their return trip.

Clyde Browning spent Sunday here.

A meeting of the J. R. W. A. was held in San Juan Sunday. Much important business was transacted.

Mr. and Mrs. Arthur Bent of Los Angeles were Sunday visitors to this place. Mr. Bent's father the late H. V. D. Bent, was one of the very old timers in French Corral and built the house now occupied by N. B. Bishop. Mr. Bent took a photo of the old place.

Chhristen Schumer and his mther, Mrs. Annie Schumer and Mrs. P. H. Flynn all of Nevada City, made a trip to French Corral Sunday. On their return trip they were accompanied by Mr. and Mrs. O. W. Bean who will visit in Nevada for a few days before returning to their home in San Francisco.

Annie Browning spent Sunday with his family in French Corral. He is employed in Nevada City.

Mr. E. Sutherland left Monday for a trip to Nome, where he has mining interests.

Mr. W. McGamm who has been sojourning in French Corral for the past two years, left Monday for Seattle, where he will remain for awhile.

Many droves of cattle have passed through during the past week. All are in fine condition.

LOCAL HAPPENINGS

Dick Landrith is confined to his ome with a sever cold that threatned an attack of pneumonia.

Mrs. William Gracey and little on, Billy, left for Pittsburgh, Pa., here they will visit with Mrs. racey's mother.

Mrs. Oscar Nelson and family spent he week-end holidays with Mr. Nelon at their home, returning to Auburn on Sunday.

Miss Alice Harry and her mother, Mrs. William Harry, returned to their home at Nevada City, where they will spend the summer.

Judge H. B. Neville and H. S. Tibbey, former editor of the Mountain Messenger, came to Nevada City to attend the funeral of A. A. Willoughby.

C. R. McCellan has returned home after spending the past two weeks on the coast for for the benefit of his health.

Dr. Beatrice Burg of Oakland spent the week-end as the guest of Mr. and Mrs. F. F. Breese.

Mrs. Clarence King and little son arrived recently from San Francisco on an extended visit to the former's parents, Mr. and Mrs. W. S. Coughlin.

Mr. and Mrs. George Lessleyong are spending a week at Carson Hot Springs where it is hoped the baths will improve the health of Mr. Lessleyong.

Mr. and Mrs. Thomas Corcoran have moved to a cottage on the Larue place, near Town Talk, where they will make their home in the future.

Mrs. Gilbert W. Gildersleeve of Oakland and Mrs. Maurice Kennedy of Stockton are the guests of Mr. and Mrs. George W. Gildersleeve.

John Eddy, George Duffy and J. D. Stewart were among the Masons from Placer county who attended the Willoughby funeral Tuesday.

Mr. and Mrs. P. H. Gordon went to Carson City on Decoration Day to decorate the graves of relatives buried at their old home.

Mr. and Mrs. Fred Searles, Jr., arrived last night from New Rochelle, N. Y., on a visit to Mr. Searls' mother.

James B. Young, who had been recovering from an illness of several weeks, suffered a relapse recently and is reported as quite ill at his home on Coyote street.

The family of Mr. Q. P. Harris spent the week-end holidays at their home here with Mr. Harris; Quinton Harris was a member of the graduating class of the Junior College at Sacramento last week.

Frank Wood returned from Berkeley where he attended the funeral of his mother, Mrs. Frank M. Wood. He left Tuesday for the Siberia mine where he is employed.

———0———

If you can tell the difference between the sound of a cicada and the sound of a rattlesnake, you know considerable about nature.

Making It Useful

Mr. Newgilt—How'll you have your new pearls; in a necklace or a dog collar?

His Wife—I think a dog collar's the best. It's so handy to tuck a napkin in when we're dining out.

Mother's Cook Book

"An enemy is the best teacher of the glorious art of forgiveness. He teaches for nothing, and you will be foolish if you do not avail yourself of the privilege of learning."

SOUPS AND OTHER DISHES

A GOOD soup is always a welcome dish. The following are good and worth keeping in your card index or recipe book:

Corn Bisque.

Drain a can of corn and chop fine. Simmer for half an hour in one quart of salted water. Add a teaspoonful of sugar, two tablespoonfuls of flour mixed with two tablespoonfuls of butter and pour over the soup. Stir until well blended, then add gradually one pint of milk. Just before serving add and pepper and pour slowly over two well beaten eggs.

Mock Bisque.

Scald four cupfuls of milk to which three-fourths cupfuls of bread crumbs have been stirred, one-half an onion stuck with six cloves, a sprig of parsley and a bit of bay leaf. Take out the seasonings and rub through a sieve. Add two teaspoonfuls of sugar, two cupfuls of canned tomatoes and cook for fifteen minutes. Add one-third of a teaspoonful of soda and rub through the sieve. Reheat the milk, add the tomatoes stirring gently, then one-third of a cupful of butter, one-half teaspoonful of salt and pepper to season. Serve with croutons.

Here is something new:

Honey Jelly.

Take three-fourths of a cupful of water, two and one-half cupfuls of honey, stir and bring to a boil. At once add one-half cupful of pectin, stirring constantly; bring to a rolling boil and remove from the fire. Skim and pour quickly into glasses, cover while hot with paraffin. Cover with a thicker layer when the jelly is cold. Roll the glasses to spread the paraffin on the sides. This amount will fill five ordinary jelly glasses.

One may prepare jelly at any season. With fruit juice and pectin any kind of jelly may be prepared in a few moments, using canned fruit.

Nellie Maxwell

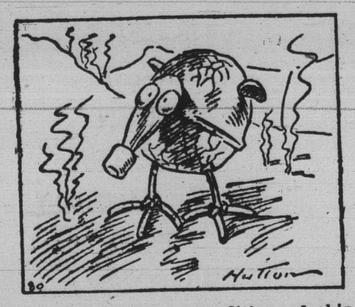
NUTTY NATURAL HISTORY

BY HUGH HUTTON

THREE-TOED CHEESEFLY

THE Limburger Mountains of Wurttembarg, which suggested the original gas attack to the German army, is the natural habitat of the cheesefly. Ever since the accumulation of natural gas forced the closing of the cheese mines, the cheesefly is the only inhabitant of the district, an existence made possible by the specially developed gas mask growing on his beak. The bird is becoming rather



rare and the last expedition of skipper hunters from Stuttgart mentioned seeing only two or three pairs.

An almond kernel and walnut form the head and body of this hardy creature. Split navy beans are used for eyes and wings, the uselessness of the latter preventing it from migrating from the desolate spot. The legs and feet are cloves fastened to a wad of sealing wax, and the gas mask is a section of softened macaroni pushed over the beak.

KINDLY FEELING

"Ready – So Soon!"

INSTANT HOT WATER does save 4 to 6 hours each week.....

If you would exchange 4 to 6 hours each week for sunlit hours of freedom—

If you would have plenty of hot water at the turn of a faucet—

Then accept this automatic hot water service.

It is the same instant hot water service that men like in fine hotels—for bathing and shaving. It is brought to you by the Automatic Gas Water Heater. Because of its insulated tank and efficiency, the cost is less per gallon to heat water with an Automatic Gas Water Heater than with the old fashioned method of waiting for water to heat.

And once you install the excellent service, there's never any delay or bother about having an abundant supply of hot water — day and night.

Plenty of hot water, at the turn of a faucet, does save time by quickly dissolving dirt and grease.

For full details about having an Automatic Gas Water Heater, telephone or call at our office—or a dealer's store.

ORIGINAL DEFECTIVE

CAMPTONVILLE

CAMPTONVILLE, June 5.—(Special to The Nugget).—The Board of Trustees of the Camptonville Union School District recently held a meeting and made an official inspection of the local school property which had become in delapitated condition. They voted to put in a new sidewalk from the building of the grammar school to the front street, put in a new drain from the building, and improve the waterway to keep the rainwater from washing trecnhes in the grounds. Other improvements about the property was ordered.

As teachers for the coming term, starting July 1, the Board elected Mrs. J. E. Pauly as principal of the grammar school, and Mrs. J. P. Smart in charge of the primary department. Mrs. Kate Hope Livingston, remaining in charge of the local branch of the high school.

Rev. Father O'Reilly of Nevada City held Mass Monday morning.

John J. Kelly passed through Monday from Moonshine en route to his mining property at Slate Range Bar.

Mrs. Bessie Schurr motored to Nevada City Monday to have some dental work done.

County Health Officer Dr. J. H. Burr was in town Monday on official business, his wife accompanied him.

C. H. Greene of Grass Valley was in town Monday on a brief business visit.

Ross L. Taylor of Downieville passed through town Monday en route to his home from a trip to the lower country.

Mrs. Acton M. Cleveland paid a short visit to relatives at North San Juan Tuesday.

James Pendola motored to Nevada City Monday on a brief business visit.

B. F. McNaught and T. J. Christy motored to the lower country Tuesday on a short business visit.

Headquarters of the Camptonville district of the Tahoe National Forest have taken on summer routine, District Ranger Frank W. Meggers having as his assistant this season Forest Guard Albert Hamilton with Operator A. H. Behrens at his usual phone switchboard. The usual annual repair of phone lines and necessary trail repair has been attended to and the department is ready for the usual work which the summer season presents.

Introduction of the new so-called bottled or compressed gas into the mountains has revolutionized lighting and cooking fuel in this section, affording the local residents those conveniences which have been enjoyed by the city folks for many years, giving them a city service within a reasonable price.

The home of W. H. (Bud) Wayman at Pike City narrowly escaped destruction by fire early Monday morning when the major part of the roof was burned off. The fire, which apparently started from a defective flue, was discovered by Wayman as he was doing the morning chores. Neighbors rushed to the scene and by tearing into the roof and carrying buckets of water they subdued the flames. The cold morning air and dampness of the night were great factors in keeping the fire from making much headway. It will take considerable wor kand material to repair the damage.

Preparations are going ahead for the big benefit dance which is to be held here at the local Masonic Hall on Saturday evening, June 21, and the event promises to be on of the largest and most successful of any ever held. Good music will be furnished by an orchestra from Marysville and dancing will continue until four wiht the usual big supper at midnight.

KID GLOVES

Customer—I want a pair of gloves for my little girl.

Saleslady—What kind?

Customer—Kid gloves, of course.

The Literary Household

Husband (to wife)—Who is that strange woman I just saw in our kitchen?

Wife—Sh-h-h! That's the cook-of-the-month.—Christian Advocate.

Enlarging His Business

First Beggar—Yesterday you were blind; today you are deaf and dumb.

Second Beggar—Yes; you see, I've enlarged my business.

Amusing

W—Every time I shake my head the baby laughs.

X—Yes; she was always fond of rattles.—London Answers.

Through a Woman's Eyes

by Jean Newton

OPINIONS DIFFER

SOME time ago this column spoke on "What You Would Miss by Not Being a Woman," about which I have had a letter from a reader severely calling me down.

Recalling briefly what we said, and beginning with the less important but not least pleasurable advantages which "we have on" men, we spoke of every woman's heritage to be "a thing of beauty that is a joy forever," and so to see the light of admiration in the eyes of men and other women and children. We spoke of every woman's heritage of homage, of her enjoyment of the gallantry of men. Then the substantial joy of being a mother, of the ecstacy of feeding a child at your breast; of the most exhilarating thing about being a woman—the needs we fill, the needs of child and man to whom we give, give, give, growing in the giving.

And here is the letter from a reader, taking issue with the above and roundly calling us down.

"Your arguments sound very fine on paper, but are they really true in facts? I was a business girl for many years, then married the average man, had several children, and am now a widow. Both my father and my husband were good men. I am as good looking as the average woman, but never get many thrills from 'seeing the light of admiration' in the eyes of either.

"As for homage, since so many women go to business, I don't see that any of them get much homage, and I am sure, not from their husbands. As for your first baby, a mother soon finds out it means a lot of lost vitality to her and sometimes more of her strength than she can spare. It sounds good but married life looks quite different after the baby comes, especially to the girl with small means, and that is the average woman. While the little mother tries to keep up her courage, many of them wish themselves again self supporting women.

"As for the supreme ecstacy of the child drinking his sustenance at your breast it may be to some mothers, but God did not create us all alike and some mothers find it very nerve racking. It can get on one's nerves very much, and the tugging always irritated me.

"Then you mention looking into the eyes of the man who needs you. Well, I know many men, but most of them are looking into the newspaper instead of in their wives' eyes, and when one would suppose they did have time to look into your eyes they always seem to have something more important to do—at least it seems more important to them. I, too, wish I had been born a man, and am not the only one who sees the man's lot is by far the more free and happy life. I should like to hear some other mother's opinion."

So should I also like to know what other mothers think about it. The reader's assumption that I am describing the enthusiasm of a favored few women, who presumably get "all the breaks," without taking into account the life of the average woman, is erroneous. It is the average woman in whom we are interested. But if either the average woman or the average man are afraid of life and bring to their lot nothing of enthusiasm and the gay spirit, we can hardly expect either of them to be satisfied with the part to which they were born. No matter what our "breaks," man or woman, to get the most out of life requires something of joyous courage and some enthusiasm to start off with. Given that, few women get such "bad breaks" that they can be utterly without realization of the joyous prerogatives of being a woman. What do you all say?

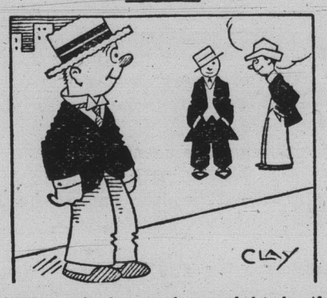
(© by the Bell Syndicate, Inc.)

BEST HE EVER HUGGED

She—Don't you think the dance music is just grand?

He—I'll say so—best I ever hugged to in my life.

QUITE DUMB



"That chap was born right in this town, but can't speak English yet."

"Is he dumb as all that?"

"Yep—can't utter a sound."

THE RETURN

By Douglas Malloch.

WELL, here's the road, and here's the house, and here's the little gate.
(I wanted pleasure, wanted wealth, and much too much to wait.)
I took a path, I took a train, I took a ship afar;
I wanted pleasure, wanted wealth, and hurried where they are.

And then I wearied of them all, I thought about the road;
It suddenly became my wealth, my wealth became a load.
Yes, when I wearied of it all, the house I thought about;
I knew it had a joy within I'd never find without.

So I have hurried home again, to find my joy at last,
To find the love I might have had, had all the lonely past.
I couldn't wait for pleasure then, and now I learn, too late,
That there are times, are times so long, not even love can wait.

(©, 1930, Douglas Malloch.)

Dear Editor:

WALKING down the street yesterday, with a friend who happens to be a traveling man, we were obliged to pass underneath a ladder.

Of course the conversation turned to superstitions.

I said I thought I was pretty free of them, although I did knock on wood when I was doing any boasting. He said he had no superstitions at all; had no time to waste with such things.

"But," said he, "I'll tell you one thing: When I walk into a hotel room I never throw my hat on the bed. That is bad luck, sure enough."

Probably we're all alike, although some of us call things by another name.—Fred Barton.

Winning Argument

Youth—I say, old thing—how on earth did you manage to talk your people around?

Fiancee—Never said a word—just kept slammin' the doors.—Passing Show.

More than ever before

THE BANK FOR SAVERS

SAFEGUARDING the savings of Californians is an old responsibility for the Bank of America. As early as 1860 a pioneer savings bank—now welded into this state-wide institution—began to build on the foundation of personal integrity and fidelity.

Today there is the added protection of close regulation and supervision by governmental authorities, but the self-imposed restrictions of the Bank of America are even more exacting. We are still building on the foundation of personal integrity and fidelity.

To savers in 160 communities and neighborhoods, the Bank of America brings this protection, reinforced by resources in excess of 400 millions.

More than ever before, the Bank of America is the bank for savers. Your account is cordially invited.

BLOOMFIELD SCHOOL PICNICS MEMORIAL PARK

Miss Louise Moulton, the teacher of the North Bloomfield School, with her class and a number of parents held a picnic at Memorial Park in Grass Valley Friday. The day was spent in games and swimming. Miss Moulton drove the truck which brought the picnicers to the park and returned them to their homes without incident.

DANCE ORDINANCE TO BE ENFORCED SOON

An ordinance has been placed before the supervisors by a committee of the Grand Jury asking regulation of dances outside the jurisdiction of municipalities. This ordinance would provide for licensing of dances, the license to be obtained three days before holding of the dance. Such permits would be issued by the county clerk at a fee of one dollar and would remain in effect for a year.

The ordinance would provide for the regulation of conduct of dancers, making it an offense to be intoxicated or for minors to be in attendance at a dance after midnight unless accompanied by parents or a guardian.

Further consideration will be given this matter at a meeting to be held July 8th.

MRS. WARNECKE HONORS NEW YORK VISITORS

Mrs. Mary Warnecke honored Mr. and Mrs. Fred Searls and Mr. and Mrs. Carroll Searls at a prettily appointed dance at the Empire Country Club on Saturday evening. The Searls were former residents here and were glad of this opportunity to greet their old friends. The members of the Country Club and others were the invited guests.

LOCAL HAPPENINGS

Mrs. J. M. Nicoll drove up from Santa Rosa to get her mother, Mrs. C. McGowan, who had been spending a week with Mrs. E. Willoughby.

Mrs. May McMean was a visitor here coming up to look after her property at Town Talk.

George L. Duffy and Martin Costello, accompanied by J. Heine of San Francisco, were here Tuesday to attend the funeral of A. A. Willoughby.

Mrs. A. W. Hoge, her son Arthur and houseguests, Mrs. Bertha McKeefer of Hollywood, motored to Lake Tahoe Sunday.

Mr. and Mrs. Charles Meiners arrived from Hermosa, S. D. Mrs. Meiners was a former resident of Pike City, Sierra county.

Miss Vivian Wimberly formerly of Alleghany, has arrived from New York and is visiting with friends in this city.

Scout Executive Harris Ricksecker of Auburn attended the Scouts' court of Honor in this city Wednesday evening.

Miss Helen Sutton of Downieville is the guest of Dr. and Mrs. J. R. Ivey.

Mr. and Mrs. Glenn Bratsberg of Oakland were week-end guests of Mr. and Mrs. Henry Clark.

JOHN ROSEMAN PASSES AWAY

John Roseman, 79, an inmate of the county hospital for a number of years passed away Friday evening at 6:30 o'clock. He was a native of New York City but had been a resident of California for about 40 years, coming to the Washington section some 8 years ago where he had mining property.

Funeral services will be conducted by Rev. Cutter at the hospital Sunday afternoon. Nothing is known of his family and no relatives have as yet been located.

COMMUNICATION

Editor of The Nugget:

Speaking of the "Days of -49" celebration we are going to pull off at Nevada City this year, it has been suggested that we get hold of one of the old thoroughbrace stage coaches, pat it thoroughly with soft cushions so as to avoid any casualties, provide good heavy straps to keep the passengers from falling out and take them for a real joy ride on the Town Town Talk-Colfax cut off at so much per head.

While this is a good suggestion and would be of particular benefit to those who feel the need of chiropractic treatment or would like to have their liver stirred up a little, I think it would be poor advertising for our community.

You would never guess it, but this stretch of so-called road is a county road and the piece particularly referred to lies between the Narrow Gauge crossing and the juncion beyond the Brunswick mine. This trail of bumps, rocks and chuck holes hasn't seen a shovel or a piece of road equipment since buggies went out of fashion and to ride over it at a sped gereater than five miles an hour produces the same gyrations as a ride in the Elks off-center go cart.

The same old rocks are there; they've been in the wheel tracks so long that they're polished by years of rubber burnishing, and every year a flock of new ones are poking their points above the mud, while the chuck holes are getting longer and deeper.

The Brunswick pipe line has been leaking for several years and now quite a respectable stream of water runs down the road in both wheel ruts, for it seems that no one has had the courage to try to make it run anywhere else and nobody seems to give a d--n where it runs. Then to add insult to injury, just as you get through the mud and water on the sharp turn over the creek, one of htese obscure chuck holes that catches both wheels at once with a firm heaving movement lifts you up against the roof of the car.

It is 2.7 miles from Town Talk across to the junction. From the junction around through Grass Valley to Town Talk it is 5.4 miles. Thus the cut off shows a saving of 2.7 miles in distance, going from Nevada City to Colfax.

This portion of the road from the railroad track to the Brunswick and beyond is in the Grass Valley supervisorial district, but it should be in the Nevada City district because it is of direct benefit to Nevada City. Nevertheless this is no reason why the road should be left in such a disgraceful condition as it has been in the past few years.

MOTORIST.

PROPERTY TRANSFERS

O. D. Woodman reports the following recent transfers of real estate in Nevada City:

P. W. Brohman of San Francisco, superintendent of transportation for the Market Street Railway, has purchased the old Williams place on the Red Dog road. The property is almost directly opposite the old Murchie home and consists of a house and about two acres of ground.

Frank Burkhart and wife of San Mateo have purchased the Salmon property on Broad street, just above the Methodist church and will arrive to take possession Thursday. Mr. Burkhart is an ex-service man and likes Nevada City so well that he has decided to make his future home hr. e

Robert Nye, who has been at McGill, Nevada, holding a responsible position with the Nevada Consolidated Copper Company for the past seven years, has purchased the Gaylord house from H. C. Dunn and will reside here in the future. Mr. Nye is the owner of the Major Quartz Mining property on Cement Hill.

James Wood of Alleghhany has purchased the Frank Taylor home on Coyote street and will move his and will move his family here in the fall in order that his son and daughter may attend high school. Mr. Wood holds a position as boss for the 16-to-1 Mining Company and was associated with Robert Bedford in the contract for the sinking of the North Star shaft from the 4000 to the 8600 level.

Dr. E. Sorenson of Kansas City, Mo., arrived here Saturday and contemplates spending three months' vacation here.

Dr. Sorenson is an assistant to Dr. Reeder of Kansas City to whom Mr. Netz went last winter and received so much relief from arthritis.—

H. V. Grueninger and H. F. Ford passed through here last week on their way to Sierra City from San Francisco. They made the trip in record time only taking 7 hours to make the entire trip.

SCOUT COLUMN

(Continued from page One)

Nevada City's eight Scouts who are already registered for summer camp is the largest percentage of any troop in the Area so far who have paid their registration camp fee, and it may be that they will nold the position of most Scouts per troop at the Summer Camp.

Figures released from the National Headquarters indicates that the Tahoe Area has been awarded "B" rating which is the highest rating given for successful administration of the principles of Scouting. It is gratifying to the Council and the cities embraced therein to know that this area's work is of such high class.

COURT OF HONOR

By Robert Tucker, Scribe.

The monthly Court of Honor was held at the Superior court room last Wednesday, June 4. Before going to the court room we went to the Scout hall where the usual opening ceremonies were led by Scout Chapman. After a little practice in semaphore signalling we went to the court house.

Roman Rozynski and Arthur Elliot were awarded their Tenderfood Badges. Bob Tamblyn received his Music Merit Badge. Gove Celio received merit badges in music and firemanship. Cecil Schiffner was awarded Firemanship. Warren Chapman received a Merit Badge in First Aid. Personal Health was presented to Warren which had been awarded at the last court. Besides the officials there were a number of visitors present who are always welcome.

Eight of the local Scouts who are going to the Camp Pahatsi summer camp, received their camp hats. After the Court of Honor we went back to the Scout Hall and closed the meeting with taps and the Scout benediction.

For that Party Luncheon?

Lamb Chops

Everybody Likes Them

Broiled Lamb Chops

Remove any superfluous fat from each chop and roll flank end about the tenderloin, fastening it into shape with a skewer. If kidney is cut with the chop, wrap flank end around it. Rub surface of chops with salt and pepper and place them on a broiler greased with some of the lamb fat. Sear chops on one side, and then turn and sear on the other side. Cook them from 6 to 8 minutes, place on a hot platter and add garnishes. Serve with parsley butter.

Parsley Butter

Cream ½ cup butter, add ½ teaspoon salt, a dash of pepper, ½ teaspoon finely chopped parsley, and ¾ tablespoon lemon juice. Spread sauce

WILL PASCOE PASSES AWAY

William Pascoe, a well known former resident of this community, passed away at Fresno Wednesday night. Funeral services will be held at Fresno Saturday.

The deceased was 56 years of age, a member of a prominent Nevada County family. He is survived by his widow, Mrs. Rose Pascoe; a daughter, Mrs. Joseph Day and two sons, John and Charles, and two sisters, Mrs. Annabelle Buckett and Mrs. Lorraine Williams.

Summer scatters the family ... the Telephone keeps it together

THE family is scattered for the summer. Sally is in the mountains. Tom is on a ranch. Mrs. Williams is at the shore. And Mr. Williams home. . . . . But he is in close touch with every member of the family.

He does it *by telephone.*

It's inexpensive. And talking to them is next best to seeing them.
